Be Seen, Be Recognized, Be Involved!

President's Message

On behalf of your Board of Directors, welcome to Concrete Alberta's 60th AGM & Industry Day.

It has been an honour to represent Concrete Alberta and its membership over the past two years, thank you for entrusting the association with me in my time as President. If there is one thing we have all learned over the past couple of years is adaptation – we need to embrace change and work together to solve the unknown if we want to succeed and continue to move forward. I encourage all members to consider getting involved in the association in any way you can – the work that we do cannot be accomplished without you. You are the backbone of this association and your commitment and support of the association is critical to our success.

Toby Piper
Concrete Alberta President

Executive Director's Message

Welcome to our 2022 Annual General Meeting and Industry Day in Canmore. Over the past 5 years of attending Concrete Alberta's AGM and Industry Day, I've seen many changes in the industry and I am excited about the advancements the Association continues to make as we move the ball forward and keep achieving the successes we strive for.

I hope that you enjoy the program that has been put together for you—it is going to be a few days full of important information and discussions. All of which will set the tone for where we are heading as an association.

I look forward to engaging with you!
