

CONCRETE ALBERTA IS HIRING: DIRECTOR OF TECHNICAL SERVICE AND TRAINING

About Concrete Alberta

Concrete Alberta is a non-profit industry association dedicated to advancing the use of concrete as the preferred supplier of resilient, sustainable and quality construction materials. Concrete Alberta is the recognized authoritative voice of the concrete industry in Alberta and has been servicing the industry since 1962.

Our mission is to provide leadership, represent and promote the concrete industry in Alberta. We advocate on behalf of our members and provide technical expertise, training, and resources to our members and the broader construction industry.

About the Role

We are seeking a highly motivated and experienced individual to join our team as the Director of Technical Service and Training. This key role reports directly to the Executive Director and is responsible for providing technical leadership, developing and delivering training programs, and promoting concrete within the construction industry.

While Concrete Alberta's office is located in Edmonton, we support a hybrid workplace model.

Responsibilities:

- Develop and deliver engaging training programs on concrete technology, design, and construction.
- Coordinate and deliver concrete certification programs as the official local sponsor group for the American Concrete Institute (ACI).
- Provide technical support to members and industry stakeholders on concrete-related issues.
- Lead and manage the Association's concrete plant and mobile mixer certification programs.
- Oversee the concrete comparative test program and ensure accurate reporting.
- Collaborate with industry partners, government, and educational institutions to advance the use of concrete.
- Represent Concrete Alberta at industry events, conferences, and technical committees.
- Stay abreast of industry trends, codes, and standards related to concrete.
- Contribute to the development and implementation of Concrete Alberta's strategic initiatives.

Qualifications:

- Bachelor's degree in civil engineering or a related field is preferred.
- Minimum of 5 years of experience in the concrete industry, with a focus on technical service and training.
- Strong knowledge of concrete materials, properties, and applications.
- Excellent communication, presentation, and interpersonal skills.

- Experience in developing and delivering training programs.
- Ability to work independently and as part of a team.
- Valid driver's license and willingness to travel throughout Alberta.

Benefits:

- Competitive salary and benefits package.
- Opportunity to make a significant impact on the concrete industry in Alberta.
- Collaborative and supportive work environment.
- Chance to work with leading experts in the field.

To Apply:

Please submit your resume and cover letter to info@concretealberta.ca (please make the subject line: 2024 Director of Technical Service and Training Position)

Application Deadline:

November 15, 2024

We thank all applicants for their interest; however, only those selected for an interview will be contacted.
